

Fisher Broadcasting owns and operates three radio stations in Seattle, WA as well as a television group with station throughout the northwest. As General Manager of our Seattle radio operations, we are pleased to partner with a great many local organizations to raise the profile of critical issues facing our community.

KOMO 1000 News offers 24 x 7 News produced by local journalists covering stories throughout out coverage area, region and country. We have local anchors, reports, and editors in our operation around the clock. We produce feature reports that arise from our ascertainment process which air throughout each quarter designed to address the most important issues facing our market. We are proud of be First for Local News, Traffic and Weather for our coverage area. KOMO has raised funds in our local market for The Moyer Foundation, Children's Hospital and the Puget Sound Blood Center. KOMO also serves as the flagship station to a 44 station network for Seattle Mariners baseball broadcasts.

KVI Radio is a Talk radio station featuring local programming in our most important morning and afternoon time periods as well as local lifestyle programming throughout the weekend. The station focuses on our market's most pressing issues and offers a "town hall" type environment for callers and guests to express their views on the big political and social issues of the day. KVI has raised money and supplies for our military personnel serving overseas this year as well as brought the traveling Vietnam Memorial wall to Seattle this past July 4th.

STAR 101.5 is a music station with locally produced programming around the clock. Our high profile morning team of Kent & Alan are heavily involved in the community by raising money for many causes. For example, Bikes For Kids awards a deserving child in our area a brand new bike every week and Bras Across Lake Washington is an annual event to raise money and awareness for breast cancer research.

We take our responsibility and charter to serve our local communities very seriously. We support initiatives designed to do good work in our community. We hope the FCC will work hard to protect the value that local broadcasters offer their communities to allow this work to continue in the face of increased competition from distant rivals.

Respectfully,

Robert I. Dunlop
Vice President & General Manager
